

# BEVERLY WILLIAMS

English Language Arts  
James Timilty Middle School

19 years of BPS service  
15 years at school

## *the nurturer*

"Ms. Williams saw [in my son] a boy who had much potential to overcome his challenges. She took the time to show she cared and was determined to help him reach his goals... [The "Technology Goes Home" program she runs] has allowed my husband and son to bond, to learn different computer programs, and enhance my son's writing skills. My husband and I knew the moment we met her that she was not just a teacher, but that she had mission to place a footprint on one's life." — *parent*

"By believing in me and holding me to very high expectations, Ms. Williams raised my level of confidence and made me feel that I can achieve great things... She taught me to be accountable for my work and compelled me to develop a stronger work ethic... This lesson... has stayed with me throughout my educational career and as a second year teacher, it is one I strive to instill in my students." — *former student*

"Beverly's dedication to her students is limitless." — *outside partner*
